SCHOLARSHIPS THAT DO NOT REQUIRE PROOF OF CITIZENSHIP OR RESIDENCY STATUS

Visit [https://sfsu.academicworks.com](https://sfsu.academicworks.com) and contact each org. for the most up-to-date scholarship information.

At SF State, we promote scholarship opportunities for ALL students, including international students and undocumented/AB 540 students. In our scholarship database, there are MANY scholarships available that do not require proof of citizenship or residency status, with some specifically for undocumented students to help overcome the obstacles of funding college.

Since the scholarships listed below are only a small sample of those available, to identify other scholarships you might be eligible for: FIRST, search the SF State scholarship database by Keyword. THEN, check the requirements listed under the citizenship and the criteria categories. IF it says “Any” or does not mention must be CA resident, then proof of citizenship or residency status is not part of the scholarship criteria.
