

HOW TO GENERATE A LIST OF SCHOLARSHIPS BY DEPARTMENT OR COLLEGE

Go to https://sfsu.academicworks.com

- Option 1: Keyword search (see screenshot below):
- Major: enter your major into the keyword box and click search for a list of scholarships in your specific department
- College: enter your college (e.g., College of Science and Engineering, College of Liberal and Creative Arts, College of Health and Social Sciences, College of Business, Graduate College of Education, or College of Ethnic Studies) for a list of College scholarships that are open to all or many majors within the College.
Option 2: Scopes search: Click "Show Filters" (see screenshot below); select the College, department or office to generate a list of scholarships. Searching by "Scopes" will give you all current scholarships administered by the College, department or office. Scholarships administered by offices generally have broad criteria and are open to all students who meet the specific eligibility requirements.

BEFORE applying, read the scholarship eligibility requirements and supplemental questions to determine if you are qualified (e.g., major, GPA, enrollment requirement to receive the scholarship, other requirements as stated).

Click "Show Filters" to do a "Scopes" search to obtain a list of College, departmental or general scholarships.
